IVY SPIDY BOARD GAME

How to play

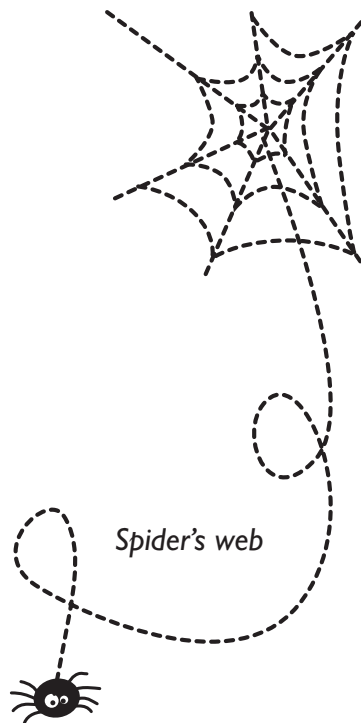

- This is like snakes and ladders, with a quizzical twist
- Takes 20 minutes to play.
- Play in teams or with individual players.
- Roll the dice, and the person who gets the highest starts the game. You roll the dice and move along the board following the bird footprints.
- When you reach the bottom of some ivy you climb to the top. When you reach a spider's web you must drop down to the square with the spider.
- When you reach a sunshine square you must answer a nature question.
- If you answer correctly you may move on 2 spaces. If you are incorrect you go back 2 spaces.
- The aim is to get all 4 of your counters to the finish first. You can only start a new counter off by throwing a 6, but you can have more than one of your counters on the board at one time.
- You need to get the exact number to win.

Sunshine

Ivy

Spider's web
